

Streamline repayments with PaymentLinks

Offer a convenient repayment service for your customers

PaymentLinks simplifies the entire repayment process, from accepting payments to offering settlements and the setting up of payment plans. This ensures customers enjoy a simplified payment experience, providing access to their account information with just one click.

Key features and capabilities

Personalised repayment requests

Use PaymentLinks to request and accept payments, offer settlements and allow the setting up of payment plans.

Embed QR codes

Add scannable QR codes on mail and emails to direct customers directly to the payment page.

Deep insights

Understand when links have been delivered, clicked, and when payment has been successful.

Real-time tracking and instant updates

Monitor payments in real-time, with any payment status changes being immediately updated across the entire platform.

Empower your customers to manage
repayments at their convenience
